DETAILED ACTION

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-13, 25-31, in part, and 47 drawn to a method for enhancing memory, classified in class 514, subclass 330, among others.
- II. Claims 14-24, 25-31 in part, 44-46, 48-50, drawn to a composition and kit, classified in class 514, subclass 330, among others.
- III. Claims 32-40, drawn to business methods, classified in class 705, subclass 8, among others.
- IV. Claims 41-43, drawn to a method of treating ADD and ADHD, classified in class 514, subclass 330, among others.

The inventions are distinct, each from the other because of the following reasons:

Inventions I and III, and IV are drawn to distinct methods of use; each method requires a separate search and is capable of supporting its own patent.

Invention II and I, III and IV are related as a product and processes of use. The inventions can be shown to be distinct if either or both of the following can be shown: (1) the process for using the product as claimed can be practiced with another materially different product or (2) the product as claimed can be used in a materially different process of using that product (MPEP § 806.05(h)). In the instant case the product as claimed can be used in a materially different process of using that product, such as for the treatment of fatigue and menopause and for the treatment of depression.

Art Unit: 1614

Because these inventions are distinct for the reasons given above and the search required for each Group is not required for each of the other Groups, restriction for examination purposes as indicated is proper.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
